Security

Start coding with Codespaces

Add a README file and start coding in a secure, configurable, and dedicated development environment.

[Create a codespace](#)

Add collaborators to this repository

Search for people using their GitHub username or email address.

[Invite collaborators](#)

Quick setup — if you've done this kind of thing before

[Set up in Desktop](#)

or

[HTTPS](#)[SSH](#)<https://github.com/battumahesh2013/Pythor>

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line

```
echo "# Python-Proect" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/battumahesh2013/Python-Proect.git
git push -u origin main
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/battumahesh2013/Python-Proect.git  
git branch -M main  
git push -u origin main
```

💡 **ProTip!** Use the URL for this page when adding GitHub as a remote.
